

# WD Scorpio® Black™

## Mobile Hard Drives

Desktop-class performance  
for notebook computers

### Interface

SATA 3 Gb/s

### Width/Height

2.75 in./0.37 in.  
69.85 mm/9.5 mm

### Rotational Speed

7200 RPM

### Capacities

80 to 320 GB

### Model Numbers

WD3200BEKT  
WD3200BJKT  
WD2500BEKT  
WD2500BJKT  
WD1600BEKT  
WD1600BJKT  
WD1200BEKT  
WD1200BJKT  
WD800BEKT  
WD800BJKT

*Note:* Not all products may be available in all regions of the world.

Designed with top-of-the-line notebook computers in mind, this high performance drive delivers the capacity and speed needed to supercharge a notebook PC without compromising battery life or quiet acoustics. Features like these also make this drive an outstanding option for compact desktops, external hard drives, gaming systems, and blade servers.

### Product Features

**Desktop-class performance for notebook computers** - With 7200 RPM spin speed, 16 MB cache, and capacities up to 320 GB, these drives enable you to have the best of both worlds: the capacity and performance of a desktop PC with the convenience and portability of a notebook.

**Massive capacity** - WD's 320 GB 2.5-inch drives offer huge capacity for space-hungry operating systems like Windows Vista™, with plenty of room left over for photos, music, and video.

**Low power consumption** - With technologies like IntelliSeek™, which calculates optimum seek speeds to lower power consumption and SecurePark™, which reduces power by parking the heads during low power idle mode, this drive delivers 5400 RPM-equivalent power consumption in a 7200 RPM drive.

**Quiet** - In a notebook drive, silence is golden. WD's exclusive WhisperDrive™ combines state-of-the-art seeking algorithms to yield one of the quietest 2.5-inch hard drives on the market.

**Reliable and rugged** - WD's ShockGuard™ technology protects the drive mechanics and platter surfaces from shocks during shipping and handling and in daily operation. WD's SecurePark parks the recording heads off the disk surface during spin up, spin down, and when the drive is off. This ensures the recording head never touches the disk surface, resulting in improved long-term reliability due to less head wear and improved non-operational shock tolerance.

**Free-fall sensor** - As an added layer of protection, if the drive (or the system it's in) is dropped while in use, WD's free-fall sensor detects that the drive is falling and, in less than 200 milliseconds, parks the head to help prevent damage and data loss.

*Available on WDxxxxBJKT models only.*

**Tested for compatibility** - We perform tests on hundreds of systems and a multitude of platforms in our FIT Lab™ and Mobile Compatibility Lab to give WD customers confidence that our drives will work in their systems.

WD Scorpio Black is part of WD's complete lineup of mobile hard drives.

<sup>1</sup>One gigabyte (GB) = 1,000,000,000 bytes. Total accessible capacity varies depending on operating environment.

<sup>2</sup>WD complies with the Restriction of Hazardous Substances (RoHS) Directive 2002/95/EC of the European Parliament, which is effective in the EU beginning July 1, 2006. RoHS aims to protect human health and the environment by restricting the use of certain hazardous substances in new equipment, and consists of restrictions on lead, mercury, cadmium, and other substances.

<sup>3</sup>Controlled unload at ambient condition.

<sup>4</sup>The term of the limited warranty may vary by region. Visit [support.wdc.com/warranty](http://support.wdc.com/warranty) for details.
